

# INDEX TO SIGNAL

Volume 51 September 1996 through August 1997

## TITLE

Sorted by topic category, each listing below includes index number, title, month of publication and page number.

### Aeronautical Engineering

1. Advanced Processor Boosts Aging Aircraft's Performance ..... June p. 23

### AFCEA 50th

2. The Tools Have Changed, but the Task Remains ..... Sept. p. 75

### Business

3. Digital Video System Offers Modularity, Compatibility ..... Oct. p. 67
4. Universal Software Dispatches Complex Desktop Computing ..... Feb. p. 61
5. Cell Encryption Method Offers Secure Bandwidth-on-Demand ..... March p. 56
6. Global Network Commerce Rests on Trusted Cyberspace Security ..... March p. 53
7. Electronic Commerce Decreases Government's Acquisition Costs ..... April p. 59
8. Removable Storage Industry Spurs Video Server Markets ..... June p. 47
9. Military Semiconductor Decline Opens Bold Company Prospects ..... June p. 41
10. Employing Technical Innovations Affects Energy Industry Strategies ..... June p. 35
11. Telecommunications Center Helps Startups Find Success ..... July p. 67
12. Corporate Mergers, Acquisitions Fraught With Potential Problems ..... Aug. p. 35

### Commentary

13. At 50, AFCEA is Proud of the Past, Poised for the Future ..... Sept. p. 17
14. Dynamic Geopolitical Forces Challenge Intelligence Assets ..... Oct. p. 15
15. Warriors in all Environments Gain Information Technology ..... Nov. p. 17
16. AFCEA Europe Meets Challenge, Reflects Atlantic Alliance Growth ..... Dec. p. 15
17. Information Technology Drives Steady AFCEA Growth ..... Jan. p. 17
18. Publication Creates Vital Link, Visibly Reflects Organization ..... Feb. p. 15
19. Secure Information Demonstrations Stimulate Modern Military Thinking ..... March p. 15
20. Global Telecommunications Revolution Faces Uncertainty ..... April p. 14
21. Strong and Resilient, AFCEA's Professional Progress Thrives ..... May p. 19
22. AFCEA's International Convention Requires Early Planning, Precision ..... June p. 18
23. Networks Crucial Key to Information Supremacy ..... July p. 14
24. Passive Missile Threats Prod Electronic Warfare ..... Aug. p. 15

### Communications

25. Art of the Small Supplies Secure Cellular Voice, Data ..... Sept. p. 60
26. Orbital Switchboards Connect Airborne Platform Voice, Data ..... Oct. p. 65
27. Scientific Network Connects Federal Agency Researchers ..... Dec. p. 55
28. Optical Fiber Technique Sparks Local Area Network Expansion ..... Jan. p. 51
29. Computer Telephony Poises to Change World Business ..... March p. 67
30. Phased Array Antennas Link Mobile Vehicles and Satellites ..... June p. 69
31. Wireless Widgets Enable High-Speed Data, Video ..... June p. 73
32. Increased Appetite for Mobility Expands Market Opportunities ..... Aug. p. 60

### Computing

33. Human-Computer Interface Research Aims To Standardize Digital Battlefield ..... Sept. p. 63
34. Portable Work Station Offers Desktop Model Performance ..... Dec. p. 59
35. Battlespace System Offers Data Anywhere, Anytime ..... Jan. p. 26
36. Silicon's Siren Song Beckons One-Billion-Transistor Chips ..... Feb. p. 31
37. Measurement Science Transforms Computing and Communications ..... Feb. p. 35
38. Industry, Government Wrestle Year 2000 Rollover Dilemma ..... Feb. p. 43
39. Multislot Portables Prod Vital Computer Markets ..... June p. 101
40. Information Specialists Pit Skills in Race Against Time ..... June p. 109
41. Operating System Lights Fire Under Network Applications ..... June p. 113
42. Computer Operating Systems Receive Speed, Power Boost ..... Aug. p. 45
43. Palmtop Computers Allow Defense Situation Reports ..... Aug. p. 49

### Conference Reports

44. Spectrum Allocation and Dual-Use Initiatives Lead to Business Shifts ..... Sept. p. 67
45. Peacekeeping, Growth Spur Atlantic Alliance Challenges ..... Jan. p. 59
46. Commercial Information Systems Proliferate in Military Operations ..... Jan. p. 63
47. Regulations Now Focus on Reinvention and Devolution ..... April p. 64
48. Radical Military Shifts Ride Information Science Waves ..... April p. 67

## Electronic Warfare

- 49. Defense Agency Experts Use  
Stock Chips to Dupe Enemies .....Aug. p. 17
- 50. Army Electronic Warriors Meld  
Technologies, Goals .....Aug. p. 21
- 51. Naval Researchers Pursue Electronic  
Warfare Gains .....Aug. p. 25

## European Technology

- 52. Dual-Mode Sensors Provide  
Automatic Target Detection .....Sept. p. 25
- 53. Frequency Hopping, Automatic  
Links Boost Tactical Operations .....Sept. p. 30
- 54. Europe's Unmanned Aerial Vehicles  
Enable Fast Action .....Sept. p. 31
- 55. Robust Military Networks Employ  
Adaptive Routing .....Sept. p. 37
- 56. Flexible Tactical Switches Connect  
Battlefield Forces .....Sept. p. 40
- 57. Distributed Power Amplifiers  
Cling to Modeling Efficiency .....Sept. p. 41
- 58. High-Speed Processing Provides  
Geographic Information Displays .....Sept. p. 43
- 59. Antiradiation Missile Designs  
Ride Dual and Multimode Sensors .....Sept. p. 46
- 60. Sweden Unveils Compact, Mobile  
Phased Array Battlefield Sensors .....Sept. p. 49

## Geospatial Information Systems

- 61. Commercial Satellites Bolster  
National Intelligence Imagery .....May p. 21
- 62. Customer-Oriented Imagery Products  
Beckon from Orbit .....May p. 27
- 63. Hard Copy Imagery Yields to  
Enhancement, Enlargement .....May p. 30
- 64. Powerful Graphics Engines  
Propel Geospatial Imagery .....May p. 45

## Government

- 65. Industry, Government Pursue  
Data Security Clearinghouse .....March p. 69
- 66. Agency's Contracting Sword  
Slays Information Dragons .....April p. 35
- 67. Reorganization Prepares for  
Technology Advances .....April p. 38
- 68. Information Chiefs Join Federal  
Executive Teams .....May p. 75
- 69. Emergency Managers Accelerate  
Dual-Use Information Technology .....Aug. p. 31

## Information Warfare

- 70. Information Warfare Demands  
Battlespace Visualization Grasp .....Feb. p. 17
- 71. Digital Formats Complicate  
Information Security Tasks .....Feb. p. 21
- 72. Command, Control Simulation  
Develops Information Warriors .....Feb. p. 25

## Intelligence

- 73. Southern Command Dominates  
Theater-of-the-Future Concept— .....Oct. p. 19

- 74. Automation Boon Benefits  
U.S. Intelligence Community .....Oct. p. 25
- 75. Crewless Aircraft Loom on  
Air Force Horizon .....Oct. p. 31
- 76. Army Electronic Warfare Gears for  
Contingency Operations .....Oct. p. 35
- 77. Modernized Iranian Navy  
Poses New Gulf Dilemma .....Oct. p. 37
- 78. New Imagery Agency Cultivates  
Commercial Industry Alliance .....Dec. p. 53
- 79. Recognition Barriers Tumble,  
Foreign Language Overflows .....Feb. p. 47
- 80. Intuitive Processing Empowers  
Foreign Language Combination .....Feb. p. 51
- 81. Vital Spy Satellites Protect  
National Security Interests .....April p. 40
- 82. Intelligence Collection Targets  
Industry's Digital Data Storage .....April p. 45
- 83. Aerial Reconnaissance Boosts  
Battlefield Awareness Scheme .....May p. 35
- 84. Reconnaissance Demands Swell  
for Precision-Guided Munitions .....May p. 39
- 85. Small, Mobile Computer  
Offers Intelligence Community Boon ....May p. 41
- 86. Russian Electronics Firms Pin Hopes  
on Privatization .....June p. 125
- 87. Information Officers Disseminate,  
Protect Intelligence Agency Data .....July p. 59
- 88. Quest for Data No Obstacle to  
Air Intelligence Agency .....July p. 63

## International

- 89. Countries Collaborate to Share  
Information-Age Benefits .....Oct. p. 61
- 90. France Banks on Privatization  
to Boost Telecommunications .....Dec. p. 33
- 91. Sweden Fine Tunes  
Telecommunications Law .....Dec. p. 37
- 92. Atlantic Alliance Wrestles  
With New Members,  
Missions, Mergers .....March p. 23
- 93. Data Link Terminal Spurs  
Atlantic Work Cooperation .....April p. 49
- 94. International Program Signals  
Acquisition Reform Initiatives .....April p. 52
- 95. Commercial Technology Ensures  
Diverse Multinational Operations .....April p. 55
- 96. Peace Partners Aid Alliance,  
Prepare for Further Missions .....May p. 71
- 97. Danish Military Unit Melds  
Peacekeeping, Combat Arts .....June p. 81
- 98. Bosnia's Information River Slows,  
Trickles to Soldiers .....June p. 87
- 99. System Emphasizes Voice,  
Data Flexibility in Combat  
Radio Links .....July p. 71

## Manufacturing Technology

- 100. Agencies, Industry Seek  
Manufacturing Agenda .....Nov. p. 59
- 101. Government, Business Join in Open-  
Architecture Machine Controller Work ...Nov. p. 62

102. Production Research Suffers as  
Funding Cutbacks Loom .....Nov. p. 63

## **Military**

103. Reshaping the Army Turns On  
Signal Corps Strengths, Assets .....Sept. p. 19
104. Nations Cooperate, Develop  
Shared Battlefield Data Plan .....Sept. p. 53
105. Lickety-Split Thin Route Links  
U.S. Tactical Forces .....Sept. p. 56
106. Real-Time Imagery Data Analysis  
Broadens Sensor System Reach .....Nov. p. 67
107. Better Battery Need Drives  
U.S. Army, Industry Quest .....Dec. p. 61
108. Navy's Projectiles Strike Enemy  
Sites Deep Ashore .....Jan. p. 41
109. Acquisition Reform Converts  
Initial Scoffers to Disciples .....Jan. p. 47
110. Computing Advances Spark  
Spectrum Management Tools .....Feb. p. 55
111. Joint Spectrum Center Eases  
Foxhole Frequency Allocation .....Feb. p. 58
112. German Information Science  
Meets Central Region Needs .....March p. 28
113. Secure Ties Bind Airborne  
Radar Surveillance, Users .....May p. 67
114. Atlantic Forces Emphasize  
Joint Training, Operations .....June p. 51
115. Army's Common Volume Program  
Assists Information Building Blocks .... June p. 57
116. Realignment Gives Industry  
Single Contact Focal Point .....June p. 65
117. Orchestrating Standards Buys  
Cooperative Combat Operations .....July p. 55
118. New Era, Cruise Missiles Alter  
Cheyenne Mountain Response .....Aug. p. 53

## **Naval Electronics**

119. Navy Ship Designs Incorporate  
Sensor, Information Systems .....Dec. p. 41
120. Satellites, Radios Combine  
for Location, Identification .....Dec. p. 45

## **Networks**

121. High-Volume Network Shares  
Information Over Vast Reaches .....Oct. p. 41
122. Industry Product Teams Bolster  
Intelligence, Military Networks .....Oct. p. 45
123. Law Enforcement Network Puts  
Finger on Fast-Footed Criminals .....Oct. p. 47

## **Professional Papers**

124. Modern Surveillance Sensors .....Nov. p. 71

## **Research & Development**

125. Research Objectives Support  
Joint Warfighter Operations .....Jan. p. 19
126. Smart Structures Unharness  
Startling Aerodynamic Boon .....July p. 19
127. Rotating Wing Active Controls  
Subdue Helicopter Vibrations .....July p. 23

128. Acute Basic Research Dominates  
Defense Science and Technology .....July p. 29
129. Microscopic Magicians Wage  
Information Security Skirmish .....July p. 35

## **Science & Technology**

130. Eyes in the Skies Sharpen,  
New Complications Loom .....Oct. p. 49
131. High-Technology Divining Rod  
Points Out Human Presence .....Oct. p. 53
132. Logic Dives Deeply to Provide  
Autonomous Guidance, Control .....Oct. p. 57
133. Government, Industry Focus on  
Battlefield Awareness .....Nov. p. 55
134. Brain's Affinity for Imagery  
Eases Information Overload .....Dec. p. 49
135. Parallel Evolution Leads to  
Metacomputing Advances .....Feb. p. 39
136. High Speed Computing Reaches  
Trendy Personal Area Networks .....Feb. p. 42
137. Swiss Chip Designs Influence  
Steep Dropoff in Device Size .....March p. 36
138. Laser Researchers Stimulate  
Solid-State Power Increases .....March p. 41
139. Natural Language Processing  
Duplicates Human Dexterity .....June p. 29
140. Critical Technologies Survey  
Defines New Tactical Bearing .....Aug. p. 40

## **Security**

141. Safeguarding Data Provides  
Network, Computer Security .....Jan. p. 37
142. Western Infrastructures Face  
Rogue Data Stream Onslaught .....Jan. p. 31
143. Airborne Corps' Style Shapes  
Vital Communications Security .....March p. 17
144. Parachute Forced Entry Drives  
Signal Battalion's Rapid Support .....March p. 21
145. Internet Explores Multilevel  
Communication Security Realm .....March p. 45
146. Desktop System Offers Integrated  
Data Security .....March p. 49
147. Secure Wireless Initiative Targets  
Satellite, Cellular .....March p. 52
148. Multilevel Security Ensures Hardy  
Information Integrity .....June p. 93
149. Detection System Inspects  
Airline Passenger Baggage .....Aug. p. 56

## **Simulation**

150. Joint Simulation Facilitates Training  
Realism Concepts .....July p. 39
151. Models, Simulations Converge,  
Close on High-Level Architecture .....July p. 43
152. Advanced Modeling Braces  
Inventive Mission Planning .....July p. 49

## **Space**

153. Solar Maximum Energy Poses  
Modern Satellites Little Threat .....June p. 119
154. Military Poises to Enhance,  
Fortify Satellite Navigation .....Aug. p. 63

155. Two Distinct Services Ensure  
Military GPS Proprietorship .....Aug. p. 66

## Tactical Information Systems

156. Army Research Efforts  
Enlist Federal, Industrial Resources ....March p. 59  
157. Commercial Systems Enhance  
Information Warfare Capability .....March p. 64

## Tactical Operations

158. Air Force Pilots Engage  
Tactical Data Targets .....Nov. p. 19  
159. New Data Technologies Aim for  
Air Superiority .....Nov. p. 27  
160. Information Afterburners Boost  
Aerial Operations .....Nov. p. 31  
161. Global Combat Support  
Speeds Tactical Larder  
Replenishment .....Nov. p. 35  
162. Security Safeguards Primary  
Battlefield Support Criterion .....Nov. p. 40  
163. Military Operations Must Vie for,  
Capture Bandwidth .....Nov. p. 41  
164. Orbiting Phone Banks Meet  
Tactical Force Requirements .....Nov. p. 47  
165. Mobile Satellite Services  
Fit Tactical Military Operations .....Nov. p. 51

## Telecommunications

166. High-Capacity Aerial Vehicles  
Aid Wireless Communications .....April p. 16  
167. Submarine's Aerial Vehicle  
Verifies Tactical Intelligence .....April p. 18  
168. Television Cable Provides  
Wireless Communications .....April p. 21  
169. Cellular Cloning Succumbs to  
Recycled Defense Technology .....April p. 27  
170. U.S. Companies Stand to Gain in  
Telecommunications Arena .....April p. 32

## Viewpoint

171. Technology Resolves Some Issues,  
Drives New Information Enigmas .....Jan. p. 55

## Wireless Information Systems

172. Tactical Wireless Links Free  
Highly Mobile Battle Forces .....Dec. p. 17  
173. Wireless Telemetry Data Ride  
Cellular Network's Capacity .....Dec. p. 23  
174. Technology, Policy Open Wireless  
Revolution Era .....Dec. p. 27  
175. Robust Wireless Tools Steer  
Two-Way Satellite Data Flow .....May p. 49  
176. Mobile Military Units  
Embrace Digital Data,  
Vehicle Tracking .....May p. 53  
177. Linking Forces on the Move  
Vexes Agency Researchers .....May p. 57  
178. Academia, Industry Team Up  
to Achieve Mobile Connectivity .....May p. 60  
179. Single Interface Accommodates  
Variable Global Data Rate Links .....May p. 63

## AUTHOR

The numbers in the listing below refer to  
the index numbers from the title listing starting on page 100.

### A

- Ackerman, Robert K. 26, 27, 30, 31, 35, 43, 46, 49, 50,  
51, 62, 63, 64, 66, 67, 71, 72, 75, 79, 80, 87, 88, 90, 92, 96,  
97, 103, 113, 114, 120, 129, 130, 131, 132, 137, 141, 145,  
147, 158, 159, 160, 168, 177, 178.  
Arbogast, Dr. Gordon W. ....29.

### B

- Braunberg, Andrew C. ....99, 134.  
Brown, David A. ....108.  
Burgess, Seán Patrick 3, 25, 34, 39, 40, 41, 44, 65, 78, 85,  
107, 123, 135, 136, 138, 146, 149, 153, 154, 155, 169.  
Bussert, James C. ....77, 86.

### C

- Campen, Col. Alan D., USAF (Ret.) ....2, 47, 68, 171.

### D, E, F

### G

- Gagner, Wayne P. ....76.  
Gregory, William H. ....100, 101, 102, 109.

### H

- Hunt, Maj. Carl W., USAF .....157.

### I, J

### K

- Kettlewell, Capt. Nick, RN (Ret.) ....95.

### L

- Lawlor, Maryann .....10, 12, 32, 89, 106, 116.

### M, N, O, P, Q

### R

- Robinson, Clarence A., Jr. 1, 4, 5, 6, 7, 28, 36, 37, 52, 53,  
54, 55, 56, 57, 58, 59, 60, 61, 69, 70, 73, 74, 81, 82, 83, 84,  
93, 94, 98, 105, 110, 111, 112, 115, 117, 121, 122, 125, 126,  
127, 128, 139, 142, 143, 144, 148, 150, 151, 156, 161, 162,  
163, 164, 165, 166, 167, 172, 173, 175, 176.  
Robinson, Michael A. ....8, 9, 11, 42.  
Ropelewski, Robert .....33.

### S

- Sidwell, Maj. Gregory L., USA .....104.  
Staff Report .....45, 48.  
Strauss, Leonard .....124.  
Suberk, D.J. ....90, 91, 170.

### T, U, V

### W

- Walsh, Edward J. 38, 118, 119, 133, 140, 152, 174, 179.  
Wood, Lt. Gen. C. Norman, USAF (Ret.) 13, 14, 15, 16,  
17, 18, 19, 20, 21, 22, 23, 24.
